Art Unit: 3682

The following is an examiner's statement of reasons for allowance: The prior art taken as a whole neither teaches nor renders obvious the combination including chamfer portions provided on the pillars and escaping recesses disposed between pillars and the side plates being arc shaped when viewed from the radial direction of the retainer. While Bessone et al does show milled recesses there is no suggestion in the prior art for providing chamfers on the pillars, and while Baden does have recesses they are not arc-shaped, nor are there formed chamfers on the pillars nor are the recesses formed by milling, resulting in burrs, as noted in Applicant's remarks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claim 14 to an invention non-elected without traverse. Accordingly, claim 14 has been cancelled.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Hannon whose telephone number is (571) 272-7104. The examiner can normally be reached on Monday-Thursday (7:30-6:00).
